

# SMARTWATER PRO™

Precision Water Measurement & Control System

Health Issue Indicator

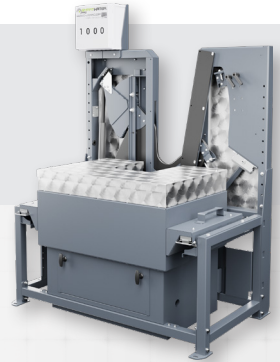

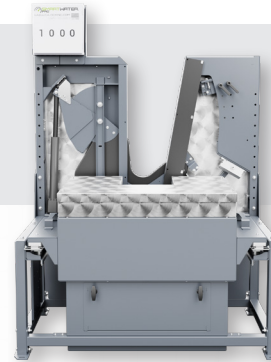

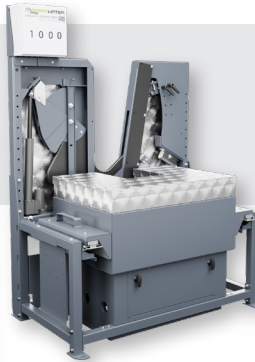

Real-Time Data Tracking

Intake & Behavior Monitoring

Individual Animal Identification

## Individual Animal Water Intake Measurement

Through RFID-enabled water stations, SmartWater Pro automatically tracks and controls individual animal water intake, measuring daily consumption patterns. This data provides critical insight into animal health and behavior, helping identify changes that impact performance and overall efficiency.

- Better Herd Management Decisions
- Health & Performance Metrics
- Control Water Intake
- Link Feed & Water Efficiency

## SmartWater Pro Purchase Includes

### Monitoring & Protocol Assistance

Product monitoring from C-Lock data specialist.

### Online User Interface

Each SmartWater Pro can be controlled by our easy to use online interface.

### Software Updates

Includes updates to online software and customer portal capabilities.

### Repairs

Product parts and repair are provided while equipment is on subscription.

### Customer Portal Access

Access to real time raw and processed data via C-Lock's cloud-based customer portal.

### Support

A support line to contact C-Lock for technical questions or to report problems.

## Features

### Plug & Play Design

Portable, wirelessly networked, and easy to set up—just plug in power and it's ready to use.

### Exclusion Head Gate

Automatic head gate system that moves animals' heads from the unit when desired intake level is reached.

### Minimal Infrastructure Changes

Easily installs into existing fence lines—no additional wiring, computers, or facilities needed.

### Kick Plate

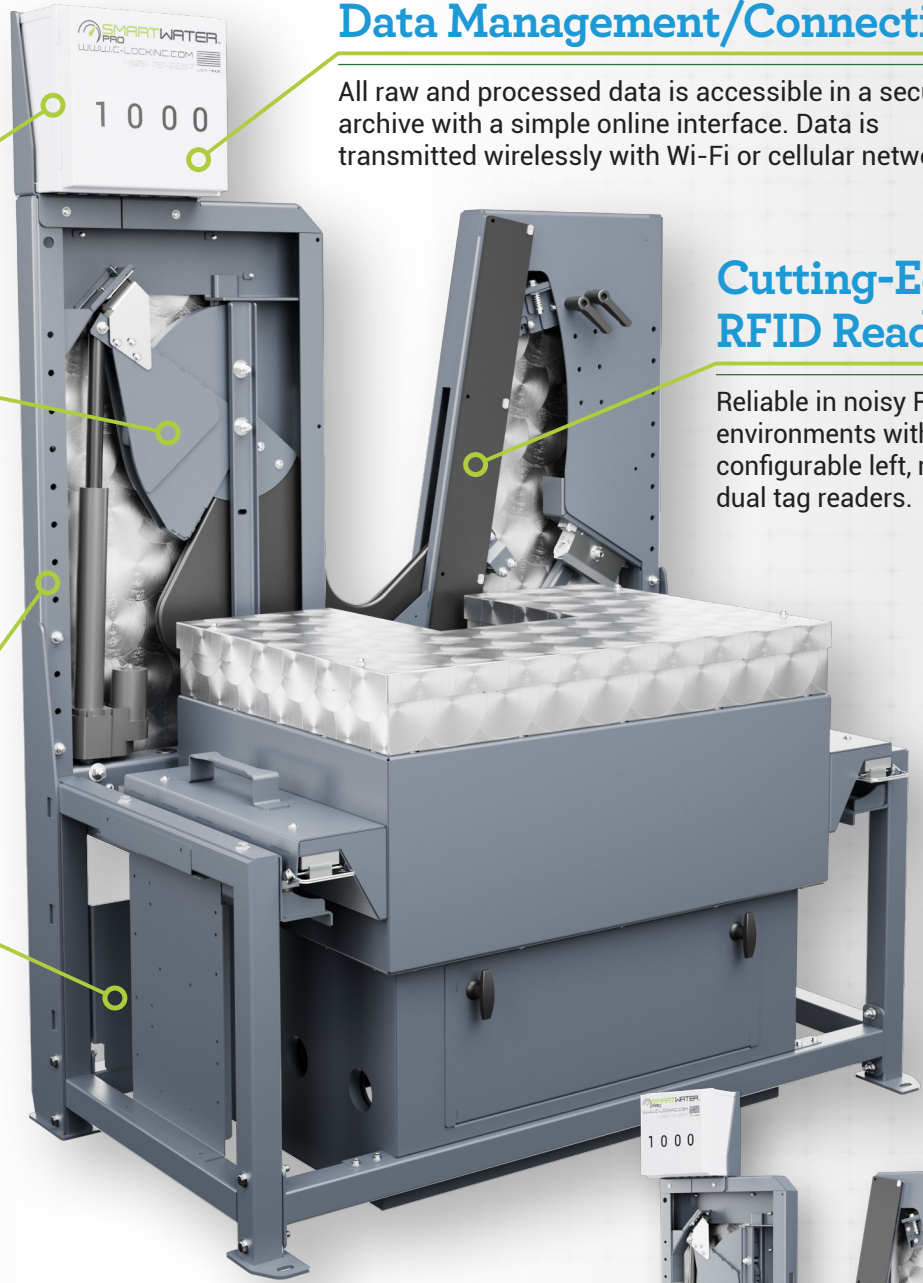

Protects load cells and weight systems from mud, manure, and debris for reliable accuracy.

## Data Management/Connectivity

All raw and processed data is accessible in a secure archive with a simple online interface. Data is transmitted wirelessly with Wi-Fi or cellular network.

## Cutting-Edge RFID Reader

Reliable in noisy RFID environments with configurable left, right, or dual tag readers.

## Product Options

### Ear Tags

All of our units read HDX - Half Duplex and FDX - Full Duplex tags. If your animals are not tagged appropriately, you may purchase tags at any time from C-Lock Inc.

### Solar Power

For remote applications, a solar power kit can be added to each unit. The kit includes one solar panel, frame, batteries, and a battery control box.
